Print and Mail Recipient Forms

We print and mail each recipient 4 copies of the 1099 or W-2 to attach to tax returns or keep on file.

Provide Payer Copy

After forms are submitted, we post a PDF for your files. You can also print and mail this copy to state and local government agencies as required.

Email Confirmation

We'll email you a confirmation when your forms have been successfully submitted.

Easy data entry

You enter data online, on a screen that looks like the actual 1099, W-2, or 941 form or import data from QuickBooks® or other software, then your data rolls over each year.
